# APO20-Serial Introduction

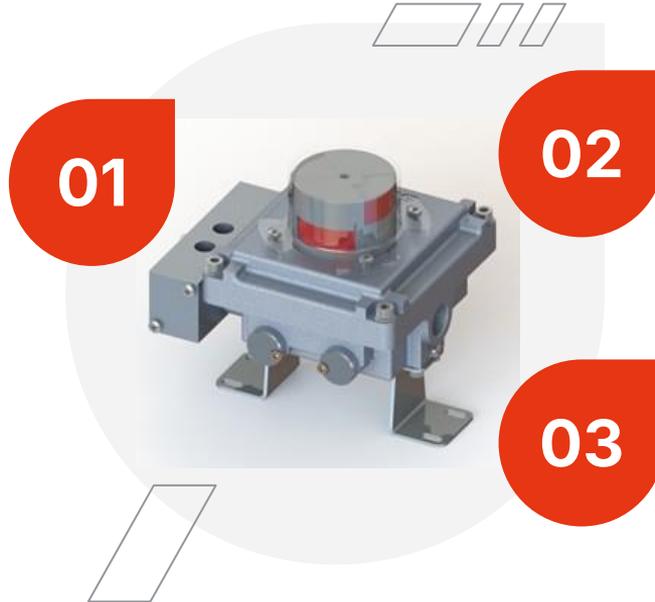

# Table of Contents

## Problem & Opportunity

Why You Need This Product

01

02

## APO20 - Serial

What Makes Our Product Different

03

## Nominal model number

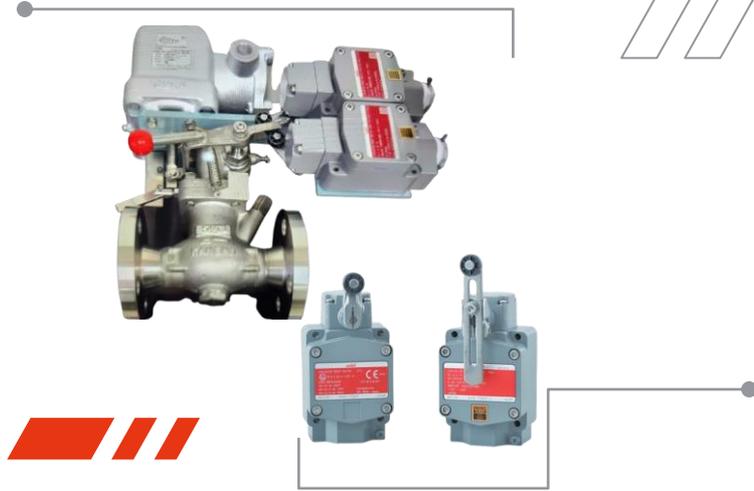

How to choose our product model

# 1. Problem & Opportunity

## Problems of the popular Limit Switch

### High Cost

200-300 USD / 1pcs

AZBIL 1LX7001-\_\_\_\_\_

### Long delivery time

4 months

# 1. Problem & Opportunity

## Why You Need This Product

Indicators and Limit Switches  
with On/Off Solenoid Valve

Reducing Cost

Reducing delivery time

Installation & Maintenance  
are easy after wiring

- **APO20**  
Solve these  
Your problems

## 2. APO20 - Serial

### What Makes APO20 Stand Out

#### External Limit Switch Adjustment

No need to open  
housing - reduces  
downtime &  
enhances safety

01

#### High accuracy

Ensures accurate  
signal feedback and  
Indicator

02

#### NAMUR Mounting Compatible

Fits industry-  
standard actuator  
interfaces

03

#### Large-Flow Solenoid Valve Integrated

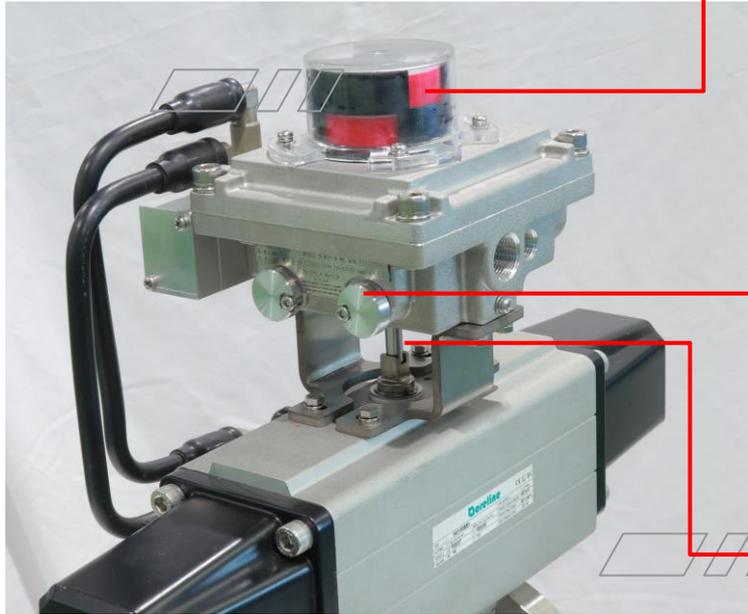

Ensures efficient  
actuation for  
demanding applications

04

## 2. APO20 - Serial

### What Makes APO20 Stand Out

#### Indicator

Monitor the status of the Actuator.  
Visually detect these deviations quickly with a built-in degree scale on the position indicator.

#### Limit Switch Adjustment

Allows users to fine-tune the position of the internal limit switches within a range of  $\pm 10$  degrees, without needing to remove the housing or expose internal components.

#### NAMUR Mounting

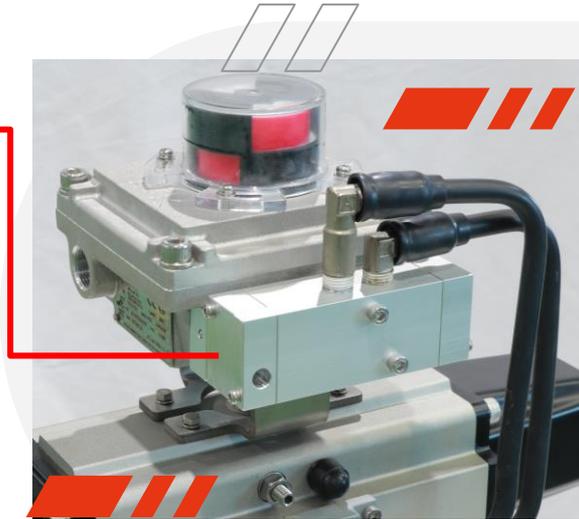

Making it compatible with a wide range of actuators and pneumatic cylinders on the market.  
If your actuator or system requires non-standard mounting or a specific configuration, we can design custom solutions to fit your needs.

# 2. APO20 - Serial

## What Makes APO20 Stand Out

### Solenoid Valve

APO20 comes with a fully integrated **4-way Solenoid valve**. Ensures fast, reliable air switching with high flow capacity

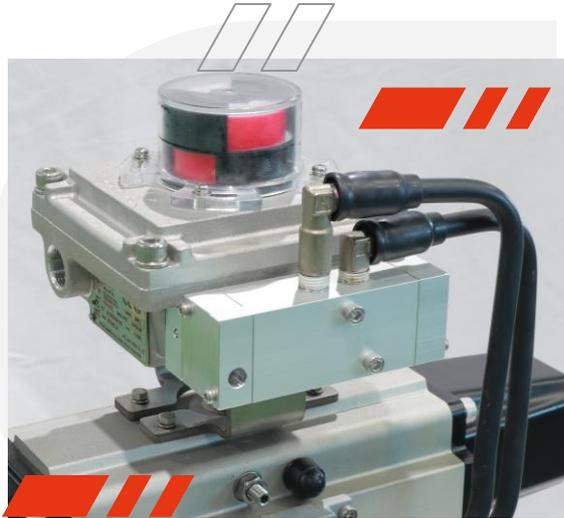

### Specifications

Function:	5 ports - pilot
Fluid:	Clean Air
Working Pre.:	0.2~ 0.99MPa
Working Temp:	-20~+60 °C
CV value:	1.2
Seal Materials:	NBR
Connection:	Rc1/4, NPT1/4

# 2. APO20 - Serial

## What Makes APO20 Stand Out

### Explosive Atmosphere Specifications

Marking & Certificate Number (Schedule)

Marking: Ex db IIB+H<sub>2</sub> T6...T5 Gb

Certificate No. :

IECEX: DEK25.0023X

ATEX: 25ATEX0044X

Type of Explosive Atmosphere	GAS
Category	II2G
Type of Protection	db
Group	IIB+H <sub>2</sub>
Temperature Class	T6...T5
Ta	T6 :- 40 ≤ Ta ≤ +40°C
Ta(APO20-□-□□-□□□-□-□□□)	T5 :- 40 ≤ Ta ≤ +60°C
Equipment Protection Level	Gb

# 2. APO20 - Serial

## SPECIFICATIONS

SPECIFICATIONS	Model A	Model B	Model C	Model D
Function	Limit Switches with Adjuster, Indicator, and 4-way Solenoid Valve	Limit Switches with Adjuster and Indicator (None Solenoid Valve)	Limit Switches and Indicator, and 4-way Solenoid Valve (None Limit Switch Adjuster)	Limit Switches and Indicator (None Solenoid Valve None Limit Switch Adjuster)
Solenoid rated voltage	AC/DC 100V~110V or AC/DC 200V~220V or DC24V	None	AC/DC 100V~110V or AC/DC 200V~220V or DC24V	None
Fluid	Clean air	None	Clean air	None
Operating pressure	0.20MPa~0.99 MPa	None	0.20MPa~0.99 MPa	None
Ambient temperature	- 40°C to +60 °C			
Cv value	1.2	None	1.2	None
Allowable voltage fluctuation	Max +10% Min -10 % ( refer to the standard voltage)	None	Max +10% Min -10 % ( refer to the standard voltage)	None
Seal material	NBR			
Nominal pipe size	Rc1/4 or NPT1/4	None	Rc1/4 or NPT1/4	None
Oring material	NBR or VMQ			
Material of Body	<b>Stainless Steel:</b> SCS13A/A351 Gr.CF-8 or SCS14A/A351 Gr.CF-8M or SCS16A/A351 Gr.CF-3M <b>Aluminum:</b> AC4C T6 or 356 or A356			
Micro switch	30VDC – 0.1A/125VAC – 0.1A or 250VAC – 5.0A			
Electrical connection type	M20 x P1.5 or NPT 1/2
